

Glue the two sheets together so that the arrows touch perfectly.

Glue the two sheets together so that the arrows touch perfectly.

Follow these steps to correctly print the sizing chart

- ✓ Print this document on A4 paper. In the print settings you have to check for correct scaling, otherwise the sizing chart will be off.
- ✓ You must set the scaling either to "None" or to 100 % to achieve a correct measurement. If you're unsure, visit a pharmacy where dw shoes are available for purchase.
- ✓ When printed, check the width marks with a ruler to assure the correctness of the sizing chart.
- ✓ Glue the two sheets together so that the arrows touch perfectly.
- ✓ You now have a correctly sized measuring chart. Follow the instructions to get a correct measurement.
- ✓ If you're unsure about any step, please visit a pharmacy where dw shoes are available for purchase and seek professional assistance

Fold here and place your heels on these marks.

Measuring Foot Length

Measuring the feet is done by tracing them on paper and measuring the length and width of each foot. In order to get the most accurate figures:

- ✓ Trace feet in the evening, after the feet have swollen to their maximum size.
- ✓ Trace feet in the hosiery that will be worn with the shoes in question.
- ✓ It is advised to get someone to assist you.

Follow the steps below to trace the feet:

- ✓ Place your feet on the marks and allow them to rest naturally.
- ✓ The balls of your feet should be touching on the middle line dividing the right and left foot.
- ✓ Holding the pencil perfectly vertically and perpendicular to the paper, trace around the perimeter of the feet as closely as possible without angling the pencil in or out.
- ✓ Read the size and width and check the table below to find your perfect fit.
- ✓ Please note that the sizing chart is adjusted and may not correspond with your typical shoe size.
- ✓ If you are between sizes, choose one size up.

SIZE	WIDTH (MM)		
	MEDIUM	WIDE	EXTRA WIDE
36	91	101	111
37	93	103	113
38	95	104	114
39	97	106	116
40	99	108	118
41	101	109	119
42	103	111	121
43	105	113	123
44	107	114	124
45	109	116	126
46	111	118	128
